

2025 Rhode Island Public Library Statistical Report: Library Collections

Release date: February 2026; updated March 2026

These data tables are part of a statistical report based on data collected in the 2025 Rhode Island Public Library Annual Survey. The full report is located on the Office of Library and Information Services website at <https://olis.ri.gov/programs-and-support/library-statistics/public-library-annual-survey>.

Data collected through the Annual Survey covers FY2025 (July 1, 2024 - June 30, 2025). The deadline for the report submission was September 15, 2025.

The Office of Library and Information Services (OLIS) participates in the national Public Libraries Survey (PLS), which is administered annually by the Institute of Museum and Library Services (IMLS). Data submitted to the PLS goes through a vetting process to ensure accuracy. Preliminary data is returned to the states annually, but is not considered finalized until published by IMLS. The data made available by OLIS through this statistical report is preliminary data, with a few corrected data points from individual libraries.

For municipalities in which more than one independent library system operates, library service areas were determined by OLIS using a spatial analysis of patron location. The municipal population was apportioned based on the geographic location and density of each library's patrons within the municipality. Only the population within the designated library service area is reflected in the population figure for each of the 17 libraries that share municipalities. If you have questions about using the data, suggestions for improvements, or have developed analyses that would be helpful to the community, please contact Kelly Metzger, kelly.metzger@olis.ri.gov.
