

**2025 Rhode Island Public Library Statistical Report:  
Income and Expenditures by Municipality**

Release date: March 2025

These data tables are part of a statistical report based on data collected in the 2025 Rhode Island Public Library Annual Survey. The full report is located on the Office of Library and Information Services website at <https://olis.ri.gov/programs-and-support/library-statistics/public-library-annual-survey>.

Data collected through the Annual Survey covers FY2025 (July 1, 2024 - June 30, 2025). The deadline for the report submission was September 15, 2025.

The Office of Library and Information Services (OLIS) participates in the national Public Libraries Survey (PLS), which is administered annually by the Institute of Museum and Library Services (IMLS). Data submitted to the PLS goes through a vetting process to ensure accuracy. Preliminary data is returned to the states annually, but is not considered finalized until published by IMLS. The data made available by OLIS through this statistical report is preliminary data, with a few corrected data points from individual libraries.

Throughout this spreadsheet, calculated measures are indicated by a differently colored column heading.

The spreadsheets included in this file provide the total public library revenue and expenditures for Rhode Island's 39 municipalities. It should be noted that Rhode Island has 48 library systems operating within those municipalities. The following municipalities have more than one independent library system:

For the municipalities above, the revenue and expenditures for all library systems operating in that municipality have been added together to provide the totals for that municipality. To see the revenue and expenditures by library system please see the report Income and Expenditures by Library System FY2025 on the OLIS website.

For municipalities in which more than one independent library system operates, library service areas were determined by OLIS using a spatial analysis of patron location. The municipal population was apportioned based on the geographic location and density of each library's patrons within the municipality. Only the population within the designated library service area is reflected in the population figure for each of the 17 libraries that share municipalities. If you have questions about using the data, suggestions for improvements, or have developed analyses that would be helpful to the community, please contact Kelly Metzger, [kelly.metzger@olis.ri.gov](mailto:kelly.metzger@olis.ri.gov).
